STUDENT CHROMEBOOK 1:1 AGREEMENT FORM

The one-to-one initiative will give students the opportunity to be involved in the learning process in new and engaging ways. As a tool with such a prominent role in the daily educational process, it is imperative to establish procedures and guidelines for the appropriate use of this device. Each student will be issued a Chromebook, which is the property of the Washington County Department of Education.

The student will receive a Chromebook and a charger. At all times, the legal title of the Chromebook is in the possession of the Washington County Department of Education. The student's right of possession and use is limited to and conditioned upon their full and complete compliance with this Agreement and the District's Acceptable Use of Computer Networks and Resources Policy and Regulation. The student has no right of confidentiality when using the Chromebook. Contents of email, information regarding internet usage, and network communications may be reviewed at the sole discretion of the District.

As a recipient of a district issued Chromebook, the student receiving the device and his or her parent(s)/guardian(s) signing this form agree to the following:

- **Device Use:** The student should use the assigned device for educational purposes only. The student is expected to bring his or her assigned device to all classes each day with a full battery charge. The student shall comply at all times with the **Grandview** Student Handbook and Code of Conduct, including the Acceptable Use of Computer Networks and Resources Policy and Regulation. The use of each device assigned to the student is subject to the acceptable use guidelines described in BOE policies and regulations. Failure to comply may result in the immediate termination of the student's rights of possession and the District may repossess the Chromebook.
- **Student's Right to Use and Possess the Chromebook:** The student's rights terminate upon withdrawal/graduation from **Grandview**, unless otherwise terminated earlier. A student's failure to return the property in a timely manner will be considered unlawful appropriation of Washington County Department of Education property.

- **Chromebook Required Each Day of Class:** The student is required to bring his or her fully charged Chromebook to class every day. The student is expected to take his or her Chromebook home every night for assignments and recharging. All rules and regulations that are in effect during the school day extend to home use of the Chromebook. If the student leaves his or her Chromebook at home, the student is responsible for getting the coursework completed as if he or she had his or her Chromebook present. If the student repeatedly leaves his or her Chromebook at home, the student may be subject to disciplinary consequences.
- **Inappropriate Content:** Inappropriate content will not be allowed on Chromebook devices. The presence of inappropriate material, including but not limited to pornographic material; inappropriate language; weapon-related content; alcohol, drug, and/or gang-related symbols or pictures, will result in disciplinary action and possible loss of Chromebook privileges.
- **Loaning or Borrowing Chromebooks:** The student shall NOT loan his or her Chromebook to other students or borrow a Chromebook from another student.
- **Required Accessories:** There are no specific required accessories at this time for the Chromebook. Any additional items such as a case can be purchased by the individual student.
- **Manufacturing Defects and Technical Problems:** Any manufacturing defects of the assigned device should be brought to the immediate attention of the Technology Department.
- **Modification of the Chromebook:** The student shall not modify the Chromebook in a way that will permanently alter it, either physically and/or electronically, other than as instructed by an administrator or other school personnel. The student is not permitted to apply marks, stickers, or other decorations to his or her assigned Chromebook. Any alteration or destruction of a Chromebook or charger will result in the student having to pay for its replacement. The student Chromebook will be labeled by The Washington County Department of Education to identify and track each device. Each Chromebook will be identified by a serial number and a CER label. The student is prohibited from altering these identifying marks.

- **Damage Fee:** Refer to the Chromebook Annual Usage Fee Form as to what is covered and excluded. Similar to textbooks, the student is responsible for maintaining his or her Chromebook in proper working condition. The student is NOT to place stickers or any adhesive decoration to his or her Chromebook. All devices, regardless of condition, will be returned to the Technology Department at the end of the 2023-2024 school year routine summer maintenance.
- **Lost Device Fee:** The student is responsible for the security of his or her Chromebook. The device should be kept with the student at all times, or secured in the student's hallway locker. The student's responsibility and obligation for the Chromebook is the same as any district-issued textbook.
- **Software and Applications:** The Technology Department reserves the right to audit and remove any software in the student assigned device at any time. The Technology Department may require the installation of software that will have access to personal information stored in the student assigned device.
- **Electronic Recording Capabilities:** Any electronic recordings obtained with the device must be for instructional/educational purposes only. The student must obtain prior approval from a staff member in order to use the audio, image, or video recording capabilities of the device. The student should ask all individuals being recorded for their permission before starting to record. No recording should start without the permission of all individuals being recorded. In addition, electronic recordings obtained with the device may not be shared, published or re-broadcasted for any reason by the student without obtaining the permission of the district and all individuals present in the recording.
- **Privacy:** The Washington County Department of Education reserves the right to examine, restrict, or remove electronic data from devices assigned to students. The student and his or her parent(s)/guardian(s) understand the assigned device may record or collect information on the student's activity or the student's use of the device. The student and parent(s)/guardian(s) further understand that all communication sent or received while connected to The Washington County Department of Education network infrastructure and services can potentially be recorded and archived. The District reserves the right to share any of such archived records with law enforcement authorities if deemed appropriate by the District. In addition, the District reserves the right to use the geolocation features of the device to track its location in case it is lost or stolen. The

District shall not use any of the recording or geo-location capabilities of the device in a manner that would violate the privacy rights of the student.

- **Access to Internet Material:** In accordance with the “Children’s Internet Protection Act” (CIPA), The Washington County Department of Education will use appropriate filtering measures to limit the exposure of the student to indecent or objectionable material on the internet while the device is connected to the school network. Furthermore, District staff will monitor student use of the device while on campus and provide guidance in the appropriate use of the device and the access to the global Internet. Parents/guardians understand that district Internet filters are not in place for the Chromebook when used at home, agree to monitor the student use of the device while off campus, and are encouraged to establish rules of usage with the student.
- **Data Security/Intellectual Property/Academic Integrity:** Students are responsible for the security of the data stored on his or her district assigned device. No passwords or login information should be shared with any classmate. The student recognizes that all content created on a district device and using a district Google account is not subject to intellectual property claims. The student further recognizes that all activity should follow the expectations for Academic Integrity.
